Make It Yours: Personal Setup, Memory & Projects

Important prompts and questions from this section — copy them exactly as shown in the lectures. Replace anything in [brackets] with your own details.

Key questions from this section

- Do I keep fixing the tone? That is a style. Keep saying "be brief"? An instruction. Keep re-explaining who I am? A memory. Keep uploading the same files? A project.
- Will this still be true next year? Put it in instructions. True only for now? Say it in the chat and let memory hold it.
- Is this a rule I could check, or a vague adjective?
- Would I attach this file twice? Then it belongs in the project's files.

Concept: Stop Repeating Yourself

Write a short offer message for this weekend.

ChatGPT: Personal Setup — Tell It How You Want Answers

How should I price a new item on my cafe menu?

Shorter please, and keep it practical for a small business.

TYPE INTO CUSTOM INSTRUCTIONS

Keep answers short and practical. Use simple, warm English, never corporate. Give me options rather than essays. Always end with one clear next step. If something is a bad idea for a small business, say so plainly.

TYPE INTO OCCUPATION

I run a small neighbourhood cafe - specialty coffee, fresh pastries and an all-day breakfast, for dine-in, takeaway and delivery.

TYPE INTO MORE ABOUT YOU

My customers are local families, students and office workers.

What should I post on social media this week?

ChatGPT: What It Remembers, Managing It, and Finding Past Chats

What is my morning offer?

Remember that we give a free pastry with every coffee bought before 9 am.

What is our morning offer?

ChatGPT: Projects — A Room for Each Job

Draft a short message to our cafe manager about the packaging supplier.

TYPE INTO INSTRUCTIONS

This project is about fixing our delivery service. Decisions so far: a minimum order for delivery from Monday; switch to sealed, spill-proof cups and containers; our cafe manager is talking to the packaging supplier, who can deliver the new containers in two weeks; review everything in 30 days.

ChatGPT: Project Files & the Daily Payoff

Read the customer reviews and tell me which delivery complaint comes up most often.

Using the reviews and the decisions in this project, write a short update for our staff on where the delivery fix stands.

Claude: Personal Setup & Making It Write Like You

Write a message telling customers we now give a free pastry with every coffee bought before 9 am.

TYPE INTO INSTRUCTIONS FOR CLAUDE

I run a small neighbourhood cafe - specialty coffee, fresh pastries and an all-day breakfast, for dine-in, takeaway and delivery. My customers are local families, students and office workers. Always write in simple, warm English, keep it short, and never sound corporate.

Morning! Fresh banana bread is out of the oven at 8. Grab a slice with your coffee, it goes fast.
Small update - we are closed this Sunday for a deep clean. Back Monday with your usual flat white.
Thank you for spending your mornings with us this week. If you loved it, tell your friends. If not, tell me first.

These are three messages I have actually sent my customers. Study how I write - the length, the greeting, the plainness - and rewrite the free pastry message in exactly that voice.

Describe my writing voice as five short rules I can save and reuse. Keep each rule under fifteen words.

Write a short message telling customers the summer menu starts on Monday.

Claude: Memory — Two Switches, and What Each One Does

Which day is our kitchen closed?

TYPE INTO THE MEMORY BOX

Our kitchen is closed every Monday.

What were the five writing rules you wrote for me earlier?

Claude: Projects — Instructions, Context, Scheduled & the Payoff

TYPE INTO WHAT ARE YOU WORKING ON

Delivery fix

TYPE INTO WHAT ARE YOU TRYING TO ACHIEVE
Fixing our delivery service - fewer late orders and no leaking packaging.

TYPE INTO THE INSTRUCTIONS BOX
This project is about fixing our delivery service. Decisions so far: a minimum order for delivery from Monday; switch to sealed, spill-proof cups and containers; our cafe manager is talking to the packaging supplier, who can deliver the new containers in two weeks; review everything in 30 days.

ADD TEXT CONTENT
Staff update format for this project. Always use these four headings: What customers said this week. What we changed. What the supplier said. What happens next. Keep each part under three lines.

Using the reviews and the decisions in this project, write a short update for our staff on where the delivery fix stands.

TYPE INTO NAME
Weekly delivery check

TYPE INTO THE TASK BOX
Read the reviews in this project and list any new delivery complaints from this week in five short lines, using the staff update format.

Gemini: Personal Setup & Memory — One List for Rules and Facts

Write a short message for customers about this weekend's pancake special, and mention our morning offer.

TYPE INTO THE ADD BOX
I run a small neighbourhood cafe - specialty coffee, fresh pastries and an all-day breakfast, for dine-in, takeaway and delivery. My customers are local families, students and office workers. Always write in simple, warm English, keep it short, and never sound corporate.

TYPE INTO THE ADD BOX
We give a free pastry with every coffee bought before 9 am.

Gemini: No Projects — the Honest Answer, and What to Use Instead

TYPE INTO NAME
Delivery fix

TYPE INTO DESCRIPTION
Helps me run the plan to fix our delivery service - decisions, supplier, and weekly updates.

TYPE INTO INSTRUCTIONS

You help me run one project: fixing our delivery service. Decisions so far: a minimum order for delivery from Monday; switch to sealed, spill-proof cups and containers; our cafe manager is talking to the packaging supplier, who can deliver the new containers in two weeks; review everything in 30 days. Keep answers short and warm.

Read the reviews and tell me which delivery complaint comes up most, then say what we already decided about it.

Switching Tools Without Starting Over — Import Memory & Migration

PASTE INTO CHATGPT

Export all of my stored memories and any context you've learned about me from past conversations. Preserve my words verbatim where possible, especially for instructions and preferences.
Categories (output in this order):
1. **Instructions**: Rules I've explicitly asked you to follow going forward - tone, format, style, "always do X", "never do Y", and corrections to your behavior. Only include rules from stored memories, not from conversations.
2. **Identity**: Name, age, location, education, family, relationships, languages, and personal interests.
3. **Career**: Current and past roles, companies, and general skill areas.
4. **Projects**: Projects I meaningfully built or committed to. Ideally ONE entry per project. Include what it does, current status, and any key decisions. Use the project name or a short descriptor as the first words of the entry.
5. **Preferences**: Opinions, tastes, and working-style preferences that apply broadly.
Format:
Use section headers for each category. Within each category, list one entry per line, sorted by oldest date first. Format each line as:
[YYYY-MM-DD] - Entry content here.
If no date is known, use [unknown] instead.
Output:
- Wrap the entire export in a single code block for easy copying.
- After the code block, state whether this is the complete set or if more remain.
