Privacy, Safety & Smart Habits

Important prompts and questions from this section — copy them exactly as shown in the lectures. Replace anything in [brackets] with your own details.

Key questions from this section

- Never paste: other people's personal data — customer names with phone numbers, staff ID numbers, bank details, health notes.
- Never paste: secrets that open things — passwords, one-time codes, card numbers, bank PINs.
- Never paste: what you promised to keep — a client's contract, a supplier's confidential price list.
- Never paste: anything you would not put in an email to a stranger.
- Before you rely — where did it come from?
- Before you rely — recompute one thing: is the figure that matters most right?
- Before you rely — read it as the receiver: would they ask a question you cannot answer?

Concept: What Never to Paste — and Verify Before You Rely

> Write a short, warm promo message for regular customers who visit on weekday mornings, offering a free pastry with every coffee bought before 9 am.

> Which rows did you count for that number, and what did you leave out?
