Custom GPTs & the GPT Store

Important prompts and questions from this section — copy them exactly as shown in the lectures. Replace anything in [brackets] with your own details.

What Custom GPTs Are

> You write price quotes for my small packaging box factory in Mumbai. We make corrugated cardboard boxes in three standard sizes. A small box, 6 by 6 by 6 inches, is 12 rupees. A medium box, 12 by 10 by 8 inches, is 22 rupees. A large box, 18 by 14 by 12 inches, is 38 rupees. The minimum order is 1000 boxes. Printing a logo adds 3 rupees per box. Delivery inside Mumbai is free for orders above 25000 rupees. Reply in simple, polite English, keep it short, and always end by asking for the delivery date and the delivery address.

> We need 5000 medium boxes with our logo printed, delivered in two weeks. What will it cost?

> What exactly can you help me with? Answer in three short lines.

The GPT Store: Finding Assistants Worth Using

> packaging

> We got an enquiry for 5000 printed boxes from a snacks brand. Draft a short reply asking for the box size, the delivery date, and the delivery address.

Building Your Own GPT, Step by Step

> Box Quote Writer

> Turns box enquiries into ready price quotes for our factory.

> You write price quotes for my small packaging box factory in Mumbai. We make corrugated cardboard boxes in three standard sizes. A small box, 6 by 6 by 6 inches, is 12 rupees. A medium box, 12 by 10 by 8 inches, is 22 rupees. A large box, 18 by 14 by 12 inches, is 38 rupees. The minimum order is 1000 boxes. Printing a logo adds 3 rupees per box. Delivery inside Mumbai is free for orders above 25000 rupees. Reply in simple, polite English, keep it short, and always end by asking for the delivery date and the delivery address.

> We need 5000 medium boxes with our logo printed, delivered in two weeks. What will it cost?

Loading Knowledge Files

> Do you make extra large boxes with full colour printing? What would 2000 of them cost?

Conversation Starters & the Profile Picture

> Quote 2000 medium boxes with logo printing

> What sizes and printing options do you offer?

> What are your delivery and payment terms?

Testing & Fixing Weak Spots

> We need printed boxes for our shop. What will it cost?

> Quote 500 small boxes with logo printing.

> We need 12000 large boxes, no printing, delivery inside Mumbai. What will it cost?

> If the box size or the quantity is missing from an enquiry, ask for them before quoting. Always check the rate card and apply the bulk discount whenever the order qualifies.

Capabilities: When to Switch What On

> Make a simple picture of a plain brown cardboard box with space for a logo on the front.

Code & Data Analysis: Guessing vs Calculating

> Here is our August orders sheet. What is the total amount, which box size sold the most, and what is the average order value?

Actions: Your GPT Calls the Outside World

> Write an OpenAPI 3.1 schema in JSON for a custom GPT Action. The action gets a daily weather forecast from the free Open-Meteo service. The servers url must be exactly https://api.open-meteo.com — plain text, with no brackets, no parentheses and no link formatting anywhere in the JSON. Path: /v1/forecast with GET. Operation id: getWeatherForecast. Parameters: latitude (number, required), longitude (number, required), daily (string, required, comma separated daily variables), timezone (string, required, use auto), forecast_days (integer, optional, 1 to 16). Output only the JSON schema, nothing else.

> We deliver 3000 boxes in Mumbai this Friday. Check the weather and tell me if dispatch looks safe.

Keeping It Current — Updates, and Who Can See It

> A small box, 6 by 6 by 6 inches, is 14 rupees.

> What is the rate for a small box now?

GPTs vs Projects vs Custom Instructions: Which Does What

> What is the rate for a small box?
